2I. Professional Contract Services Policy
Plymouth Congregational Church

There will be times when Plymouth Congregational Church will need to hire outside professional service organizations, because we do not have the expertise or resources to carry out the work internally. This document outlines the policy for selecting and hiring professional contract service organizations.

1. All professional contract service organizations hired to perform work at or for Plymouth Congregational Church, are to operate and conduct business in a manner that is compatible with the personnel policies and social justice values of Plymouth Congregational Church.
