

**Plymouth Congregational Church
Procedures and Guidelines**

Preface

The Plymouth Congregational Church Procedures and Guidelines are an attempt to communicate the ongoing operation of the church to new committee members and to the overall congregation. Statements within this document are not binding on Church members and staff, but represent processes that have been shown to work during the life of the Church. It is hoped that through effective communication, they will lead to smoother year-to-year transitions of church government and to an overall more effective ministry.

Table of Contents
